or by Venmo to @Cordann-Anderson
(Some scholarship funds available from the Northwest Therapeutic Touch Institute)

Instructor: Cordy Anderson BSN, QTTT, Retired RN

In 1984 I began my 32-year career as a home health and hospice nurse. Therapeutic Touch magically came into my life as the “what to do when there is nothing else left to help”. Almost immediately I found TT to be an amazing adjunct to my nursing care…to ease someone’s respiratory distress…to relieve phantom pain…to help reduce a fever. Now, in my “retreadment” (a term I learned from TT Founder Dr. Dolores Krieger) my priorities are to be an involved grandma, teach TT, and offer Therapeutic Touch every chance I get. I support TT in other ways, one is participating on both the NWTTI and TTIA Boards. Another is to carry TT to new places as I travel from Oregon through California, New Mexico, and Colorado. After over 30 years, I know that I am greatly benefited by each and every TT session. It is my joy to share this experience with others.
